Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 1 is rejected under 35 U.S.C. 103(a) as being unpatentable over Montagner, U.S. Patent 6,161,254 (12/19/00) in view of Schuchard, U.S. Patent 6,505,933 (1/14/03).

Montagner teaches a hinge part (7) held in a displaceable manner in a longitudinal direction of the temple in a housing (1) on the temple side, a fixture (3', 3'') which projects from the hinge part in the direction of displacement, engages in an opening in the housing (1) and comprising a fixture rod (3) and a transversal bar at the end of the fixture rod (5, 5'), two helical springs provided laterally adjacent the fixture rod (6) and parallel thereto inserted into a housing bore (fig. 6, 1') and resting with their ends at the hinge side on an abutment associated with the housing (Col 4, Lines 43-48) and open toward the housing opening for the fixture rod. Montagner does not teach the housing bores each receiving a locking element forming the abutment for the helical spring. Schuchard does teach a locking element (11) forming the abutment for a helical spring (10). At the time of the invention it would have been obvious to one of ordinary skill in the art to provide Montagner with the features as taught by Schuchard because a

replaceable locking element would allow the abutment to be replaced if the abutment were to wear out due to high cycling.

Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over Montagner and Schuchard as applied to claim 1 above, and further in view of Montalban, U.S. Patent 6,152,562 (11/28/00).

All the aspects of the instant invention are disclosed above but for the locking element being screwed into the housing bore. Montalban does teach a locking element (24) being screwed into a housing bore (Col 3, Lines 65-67). At the time of the invention it would have been obvious to one of ordinary skill in the art to provide Montagner and Schuchard with the features as taught by Montalban because a screw fastening for the locking element is well known in the art and would be easily to install and remove.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to MATTHEW SULLIVAN whose telephone number is (571)270-5218. The examiner can normally be reached on Mon-Thurs, 8:00 am - 6:00 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Victor D. Batson can be reached on 571-272-6987. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
